

Ruby Judge

My name is Rupinder Kaur Judge and I am a Specialist Leader of Education for Maths at Chiltern Learning Trust. I am also part of the Central School Improvement Team at Chiltern Learning Trust. Currently, I teach and consult in a middle school in Central Bedfordshire for 4 days and every Friday, I support other schools in the trust to bring about improvements in Maths teaching across the trust.

Prior to my current role, I have worked at an outstanding school, good school and requires improvement school - holding a range of positions and teaching Maths across Key stage 2 and 3. I have 16 years of excellent experience in teaching. I have taught in local schools in Kempston. I am very passionate about Pupils' education and have contributed positively with significant impact on raising standards in 4 different schools so far.

I hold a MA (Political Science) B.Ed. with QTS. I live in a nearby village and have been a co-opted governor at Bedford Free school since September 2017. I have thoroughly enjoyed being an independent co-opted governor at Bedford Free school as I am fully aligned with BFS values and vision. I believe that a good school has a good range of governors as critical friends to help school achieve even better education and outcomes for our pupils.

I have two sons who are also in full time education. In my spare time I enjoy playing badminton, swimming and watching Netflix.
